

Significant Savings + Superior Care

Utilization Management,
Managed with Care.

With an aging population, the prevalence of vision problems is projected to increase, resulting in higher eye-health care costs. To ensure medical necessity for ocular procedures for your Medicare and Medicaid recipients, you need an eye-health care expert on your side.

A Turnkey UM Solution

The iCare Utilization Management solution helps you:

- Control costs
- Curtail overutilization
- Ensure regulatory compliance
- Provide timely and effective care
- Deliver optimal outcomes

Advanced Technology + Comforting Care

With more than 30 years of experience in the management of ocular health, our team will:

- Support transparency of coverage criteria through our secure online portal
- Conduct true peer-to-peer reviews with licensed ophthalmologists
- Improve member satisfaction and the provider experience
- Develop coverage criteria for emerging technologies and ocular procedures

Seamless Delivery + Unparalleled Support

- Consultative and collaborative approach ensures seamless delivery
- Customized services that are flexible, fast, and accurate
- Live support to answer provider inquiries and assist in scheduling peer-to-peer reviews
